

I have been an XM radio subscriber for 6 months now. I was disappointed to hear about the NAB's petition 04-160. I feel as though by paying for my XM service I should be able to have instant traffic and local weather whenever I want to tune in. I don't believe that the NAB should be able to dictate what services are available to me when I am paying the subscription fee. I respectfully urge the FCC to reject the NAB's petition 04-160.

Thank you.
